# iPad Parental Controls

You can enable and adjust Restrictions, also known as Parental Controls, on your child's iPad to prevent access to specific features or content.

Locate these settings by tapping Settings > General > Restrictions.

## **Using Restrictions**

To Enable Restrictions, tap Enable Restrictions and enter a passcode.

The passcode will be required to make changes to these settings or to disable restrictions.

#### Please Be Aware

If your child's iPad is missing a particular application or if a certain feature is not available, it maybe because you have enabled Restrictions.

Symptoms can include:

- App missing from the Home screen (Safari, Camera, or YouTube for example)
- Feature or service unavailable (Siri, Ping, Location Services, and so on)
- Setting missing or greyed out (such as Mail, Contacts, and Calendar; iCloud; Twitter; FaceTime)
